

## Summer Vacations Homework (Computer Education)

Name	Father Name	Section
Abubakar	Muhammad Ramzan	Jinnah

Q)1: What is a Computer ?

---

---

---

Q)2: What is Data ?

---

---

---

Q)3: What is Information ?

---

---

---

Q)4: What is Processing ?

---

---

---

Q)5: What is Hardware ?

---

---

---

Q)6: Write some examples of Hardware ?

---

---

---

Q)7: What is Software ?

---

---

---

Q)8: Write some examples of Software ?

---

---

---

Q)9: What are input devices

---

---

---

Q)10: Write some examples of input devices

---

---

---

Q)11: What is Keyboard ?

---

---

---

Q)12: What are the sections of a keyboard ?

---

---

---

Q)13: Write the name of these devices ?

---

---

---

Q)14: Write the name of keyboard section showing below ?

Q)15: Name the sections of keyboard ?

Q)16: Fill in the Blanks

Computer is \_\_\_\_\_ Machine

Printer is \_\_\_\_\_ device

Keyboard is laid out in \_\_\_\_\_ Pattern

Games are the example of \_\_\_\_\_

Physical parts of computer are called \_\_\_\_\_

Instructions given to computer are called \_\_\_\_\_

Look at this picture of a computer .

A computer is made up of many parts.

Let's explore the parts to see if you know what they are called!

## The CPU

CPU stands for "Central Processing Unit". They contain the brains of the computer. They can be **desktop** models that the monitor sits on top of, or **tower** models that stand up tall.

## The Monitor

The monitor looks like a TV and lets you see your work and your files.

## The Keyboard

The keyboard is probably the most used input device. It operates a lot like a typewriter, but has many additional keys that let it do special things a typewriter can't.

The monitor looks like a TV and lets you see your work and your files.

## The Keyboard

The keyboard is probably the most used input device. It operates a lot like a typewriter, but has many additional keys that let it do special things a typewriter can't.

Name	Father Name	Section
Jamshed Hussain	Tanveer Hussain	Jinnah

Q)1: What is a Computer ?

---

---

---

Q)2: What is Data ?

---

---

---

Q)3: What is Information ?

---

---

---

Q)4: What is Processing ?

---

---

---

Q)5: What is Hardware ?

---

---

---

Q)6: Write some examples of Hardware ?

---

---

---

Q)7: What is Software ?

---

---

---

Q)8: Write some examples of Software ?

---

---

---

Q)9: What are input devices

---

---

---

Q)10: Write some examples of input devices

---

---

---

Q)11: What is Keyboard ?

---

---

---

Q)12: What are the sections of a keyboard ?

---

---

---

Q)13: Write the name of these devices ?

---

---

---

Q)14: Write the name of keyboard section showing below ?

Q)15: Name the sections of keyboard ?

Q)16: Fill in the Blanks

Computer is \_\_\_\_\_ Machine

Printer is \_\_\_\_\_ device

Keyboard is laid out in \_\_\_\_\_ Pattern

Games are the example of \_\_\_\_\_

Physical parts of computer are called \_\_\_\_\_

Instructions given to computer are called \_\_\_\_\_

Look at this picture of a computer .

A computer is made up of many parts.

Let's explore the parts to see if you know what they are called!

## The CPU

CPU stands for "Central Processing Unit". They contain the brains of the computer. They can be **desktop** models that the monitor sits on top of, or **tower** models that stand up tall.

## The Monitor

The monitor looks like a TV and lets you see your work and your files.

## The Keyboard

The keyboard is probably the most used input device. It operates a lot like a typewriter, but has many additional keys that let it do special things a typewriter can't.

Let's explore the parts to see if you know what they are called!

## The CPU

CPU stands for "Central Processing Unit". They contain the brains of the computer. They can be **desktop** models that the monitor sits on top of, or **tower** models that stand up tall.

## The Monitor

The monitor looks like a TV and lets you see your work and your files.

## The Keyboard

The keyboard is probably the most used input device. It operates a lot like a typewriter, but has many additional keys that let it do special things a typewriter can't.

Q)1: What is a Computer ?

---

---

---

Q)2: What is Data ?

---

---

---

Q)3: What is Information ?

---

---

---

Q)4: What is Processing ?

---

---

---

Q)5: What is Hardware ?

---

---

---

Q)6: Write some examples of Hardware ?

---

---

---

Q)7: What is Software ?

---

---

---

Q)8: Write some examples of Software ?

---

---

---

Q)9: What are input devices

---

---

---

Q)10: Write some examples of input devices

---

---

---

Q)11: What is Keyboard ?

---

---

---

Q)12: What are the sections of a keyboard ?

---

---

---

Q)13: Write the name of these devices ?

---

---

---

Q)14: Write the name of keyboard section showing below ?

Q)15: Name the sections of keyboard ?

Q)16: Fill in the Blanks

Computer is \_\_\_\_\_ Machine

Printer is \_\_\_\_\_ device

Keyboard is laid out in \_\_\_\_\_ Pattern

Games are the example of \_\_\_\_\_

Physical parts of computer are called \_\_\_\_\_

Instructions given to computer are called \_\_\_\_\_

Look at this picture of a computer .

A computer is made up of many parts.

Let's explore the parts to see if you know what they are called!

Computer is \_\_\_\_\_ Machine

Printer is \_\_\_\_\_ device

Keyboard is laid out in \_\_\_\_\_ Pattern

Games are the example of \_\_\_\_\_

Physical parts of computer are called \_\_\_\_\_

Instructions given to computer are called \_\_\_\_\_

Look at this picture of a computer .

A computer is made up of many parts.

Let's explore the parts to see if you know what they are called!

## The CPU

CPU stands for "Central Processing Unit". They contain the brains of the computer. They can be **desktop** models that the monitor sits on top of, or **tower** models that stand up tall.

## The Monitor

The monitor looks like a TV and lets you see your work and your files.

## The Keyboard

The keyboard is probably the most used input device. It operates a lot like a typewriter, but has many additional keys that let it do special things a typewriter can't.

Q)1: What is a Computer ?

---

---

---

Q)2: What is Data ?

---

---

---

Q)3: What is Information ?

---

---

---

Q)4: What is Processing ?

---

---

---

Q)5: What is Hardware ?

---

---

---

Q)6: Write some examples of Hardware ?

---

---

---

Q)7: What is Software ?

---

---

---

Q)8: Write some examples of Software ?

---

---

---

Q)9: What are input devices

---

---

---

Q)10: Write some examples of input devices

---

---

---

Q)11: What is Keyboard ?

---

---

---

Q)12: What are the sections of a keyboard ?

---

---

---

Q)13: Write the name of these devices ?

---

---

---

Q)14: Write the name of keyboard section showing below ?

Q)15: Name the sections of keyboard ?

Q)16: Fill in the Blanks

Computer is \_\_\_\_\_ Machine

Printer is \_\_\_\_\_ device

Keyboard is laid out in \_\_\_\_\_ Pattern

Games are the example of \_\_\_\_\_

Physical parts of computer are called \_\_\_\_\_
